REMARKS

A substitute Sequence Listing in both computer readable form and a paper copy is being provided herewith which corrects alleged errors cited by the Patent Office. Specifically, SEQ ID NO: 3 has been amended in the substitute Sequence Listing to remove the variable length of the X's in the sequence. Support for the change can be found in the specification at page 31, lines 15-18 wherein it lists SEQ ID NO: 3, including X_n and states that X is any amino acid and n is any integer. Therefore, no new matter has been added by the amendment to the Sequence Listing.

Additionally, Applicants wish to note that the changes to the Sequence Listing were made solely to comply with Sequence Listing rules of form and should not be construed in any way to limit the presently disclosed subject matter of the pending application.

Although it is believed that no fee is due, the Commissioner is hereby authorized to charge any fees associated with the filing of this correspondence to Deposit Account No. 50-0426.

Respectfully submitted,

JENKINS, WILSON & TAYLOR, P.A.
